

## Claire Duvallet

---

I am a PhD in computational biology using data science to impact society.

EDUCATION	<b>Massachusetts Institute of Technology</b> , <i>Cambridge, MA</i> Ph.D., Biological Engineering, January 2019	2014 – 2019
	<b>Columbia University</b> , <i>New York, NY</i> B.S., Biomedical Engineering	2009 – 2013
EXPERIENCE	<b>Biobot Analytics</b> <i>Data Scientist</i>  Biobot Analytics measures opioids in sewage to estimate consumption in cities. As Biobot's first data scientist, I lead our data analytics and visualization efforts, communicate the value of our novel public health data, and serve as the main point of contact for our customers, public health and city officials.	2019 – present
RESEARCH	<b>Massachusetts Institute of Technology</b> Supervisor: Eric J. Alm, Ph.D. Ph.D., <i>Department of Biological Engineering</i> (2015 – Jan. 2019) Postdoc (Feb. 2019 – Apr. 2019)  I studied the relationship between the microbiome and health and disease, mining large clinical and biological datasets to extract scientific insight.	2015 – 2019
	<b>Columbia University</b> Supervisor: Samuel L. Sia, Ph.D. <i>Molecular and Microscale Bioengineering Laboratory</i>  As an undergraduate researcher, I worked on developing a point-of-care microfluidic device to diagnose multi-drug resistant tuberculosis in resource-limited settings.	2011 – 2013
	<b>Ecole Polytechnique</b> Supervisor: Cedric Norais, Ph.D. <i>Laboratoire de Biochimie</i>  As an international undergraduate research intern, I studied the acquired-immunity CRISPR system in <i>E. coli</i> .	Summer 2012
TEACHING	<b>Teaching Assistant</b>	Fall 2015
EXPERIENCE	20.106 Systems Microbiology, <i>Massachusetts Institute of Technology</i>  I was a TA for seven advanced undergraduate students in a new course on the human microbiome, emerging disease, phylogenetics, and host-microbe interactions.	
	<b>Lecturer</b> Biomedical Equipment Technology Department, <i>University of Puthisastra</i> Engineering World Health, <i>Phnom Penh, Cambodia</i>  As a Luce Scholar, I was one of the first lecturers for Engineering World Health's new Associate Bachelors program in Biomedical Equipment Technology at the University of Puthisastra, a private university in Phnom Penh.	2013 – 2014

My senior year at Columbia, I TAed the biomedical engineering section of the introductory engineering course for freshmen.

- Received PSB Award for Rigorous Secondary Data Analysis
15. Scott Olesen, **Claire Duvallet**, and Eric Alm. (2017)  
 “dbOTU3: A new implementation of distribution-based OTU calling.”  
*PloS ONE*. doi: [10.1371/journal.pone.0176335](https://doi.org/10.1371/journal.pone.0176335).

#### ORAL PRESENTATIONS

1. “24-hour multi-omics analysis of residential sewage reflects human activity and informs public health.” American Chemical Society National Meeting. Wastewater-Based Epidemiology: Opportunities, Challenges & Applications to Public Health & Safety. San Diego, CA. Aug. 2019. *Invited*.
2. “Intro to microbiome data visualization.” Cornell University 2019 Microbiome Hackathon: Microbiome Hack. Ithaca, NY. Apr. 2019. *Invited*.
3. “Framework for rational donor selection in fecal microbiota transplant clinical trials.” International Conference on Microbiome Engineering (ICME 2018). Boston, MA. Nov. 2018. *Invited*.
4. “Predictive power of the microbiome.” Science on Tap! Boston College Department of Biology seminar series. Boston, MA. Aug. 2018. *Invited*.
5. “Distribution-based methods to increase power and reduce redundancy in microbiome data.” Teaching and Developing QIIME 2 Workshop. San Diego, CA. May 2018. *Selected*.
6. “Meta-analysis to identify consistent disease-associated microbiome shifts.” MIT-Harvard Microbiome Symposium. Cambridge, MA. March 2018. *Selected*.

SOFTWARE	<b>Percentile normalization</b>	
	Correcting batch effects in case-control microbiome studies.	
	Python implementation ( <i>contributor</i> ) and QIIME 2 plugin ( <i>developer</i> ).	
	<b>Distribution-based OTU calling</b>	
	New implementation of Preheim <i>et al.</i> 's distribution-based OTU clustering algorithm.	
	Python implementation ( <i>contributor</i> ) and QIIME 2 plugin ( <i>developer</i> ).	
	<b>Amplicon sequencing pipeline</b>	
	End-to-end pipeline to process 16S data.	
	Python implementation ( <i>co-developer</i> ).	
FELLOWSHIPS & AWARDS	<b>Fellowships</b>	
	Siebel Scholars Foundation	2018
	<i>Siebel Scholar Class of 2019</i>	
	National Defense Science and Engineering Graduate Fellowship	2015 – 2018
	<i>NDSEG Recipient</i>	
	National Science Foundation Graduate Research Fellowship	2015
	<i>Honorable Mention</i>	
	Henry Luce Foundation	2013 – 2014
	<i>Luce Scholar, Engineering World Health Cambodia</i>	
	<b>Awards</b>	
	PSB Award for Rigorous Secondary Data Analysis	2019
	<i>Junior Research Parasite</i>	
	MIT Graduate Women of Excellence	2017
	Salutatorian	2013
	<i>Columbia University Fu Foundation School of Engineering and Applied Science</i>	
	Richard Skalak Award in Biomedical Engineering	2013
	<i>Columbia University Department of Biomedical Engineering</i>	
	Robert E. and Claire S. Reiss Prize in Biomedical Engineering	2013
	<i>Columbia University Department of Biomedical Engineering</i>	
	King's Crown Bronze Leadership Award	2012
	<i>Columbia University</i>	
	Tau Beta Pi, The Engineering Honor Society	2012
LEADERSHIP & SERVICE	<b>Academic and professional</b>	
	<a href="#">Bluebonnet Data</a>	2019 – present
	Volunteer data analytics for state and local campaigns	
	<i>Team lead and data scientist</i>	
	<a href="#">MIT Microbiome Club</a>	2015 – 2018
	<i>Co-founder, president, and executive board member</i>	
	MIT-Harvard Microbiome Symposium	2016 and 2017
	<i>Co-founder and organizing committee</i>	

MIT Biotech Group	2017 – 2018
<i>Beyond the Bench Initiative board member</i>	

## Departmental and MIT

Biological Engineering Department Visiting Committee	2018
<i>Graduate student representative</i>	
Graduate Student Advisory Group for Engineering (GradSAGE)	2017 – 2018
Advisory group to the Dean of the School of Engineering	
<i>Advisor/Advisee Relations Subcommittee</i>	
MIT Graduate Student Council	2017 – 2019
Diversity and Inclusion Subcommittee	
<i>Vice Chair, Department and Classroom Inclusion co-coordinator</i>	
BE Resources for Easing Friction and Stress (BE REFS)	2016 – 2019
<i>Confidential conflict management coach and graduate student advocate</i>	
BE Graduate Student Board	2015 – 2018
<i>Diversity Chair</i>	
<i>Co-founder, BE Application Assistance Program</i>	
<i>Lead author, BE Departmental Values Statement</i>	
<i>Co-lead, 2016 BE Diversity Survey</i>	

## Outreach & Mentorship

MIT Microbiome superUROP	2016 – 2017
<i>Mentor, supervised one undergraduate researcher</i>	
Science Club for Girls, Young Leaders in STEM	2016 and 2017
<i>Volunteer, developed and taught three-day course on microbiology and the human microbiome</i>	
MIT SPLASH	2015
<i>Volunteer, “Microbiome 101: What’s in your poop?”</i>	
E3: Empowering, Encouraging, and Eliminating Barriers for Women in STEM	2015
<i>Mentor (2015), guest presenter (2016)</i>	
ESL Program for MIT Service Employees	2015 – 2018
<i>Math GED tutor</i>	

## Reviewer

MIT Summer Research Program (MSRP) Reviewer	2018 and 2019
MIT Committed to Caring Selection Committee	2017
MIT IDEAS Global Challenge Reviewer	2015 – 2018
